

When Wilmer Hale relocated its New York law office, it moved to the forefront of sustainable design, earning LEED® Gold certification for its space at 7 World Trade Center in Lower Manhattan. To support the firm's preeminent teams of litigators, attorneys, and specialists, DatesWeiser followed suit with finely crafted, environmentally friendly conference tables and credenzas.

Top: Highline boat-shaped conference table, marble top, polished chrome base and trim with graduated table top technology; two high credenza, white lacquer case and drawers, top access trash and recycling bins and polished chrome base. Left: Highline boat-shaped conference table, back painted white etched glass, polished chrome edge and open loop leg with table top technology; two high credenza with walnut case and drawers, polished chrome base. Custom walnut meeting table, solid wood knife edge, drum base and continuous table top technology field in satin nickel; Highline two high credenza, white lacquer case and drawers, polished chrome base, shown right.
