

CUSTOM SAMPLE REQUEST FORM

Required Items for Custom Samples:

- **Sample Request (SR) Form**
- **Quote Request (QR) Form**
- **Control Sample**
 - o **Send to DatesWeiser Factory with one copy of the completed Sample Request Form**

Control Samples should be shipped with a Completed Sample Request form to:
 DatesWeiser; ATTN: Sampling- CS; 1700 Broadway; Buffalo, NY 14212
 Phone: (716) 891-1700

Typical Sample Sizes:

- Custom Paint and Veneer Samples: 8.5" x 11"
- Custom Glass Samples: 6" x 6"
- Custom Metal Samples: 3" x 4"

Lead Times:

Typical Lead Times	
Satin Lacquer (SL)	2-week lead time
High Gloss Polyester (HG)	3-week lead time
Glass (clear or etched)	3-week lead time
Metal	TBD based on sample
Veneer *	2-week lead time

The **Control Sample** is necessary for us to determine which characteristics we are matching. Please specify if we are matching color, grain, sheen, fill, texture or all of the control samples features

A completed Sample Request form (provided by the Sales Representative) must be included with any control samples sent to the DatesWeiser Factory. The form includes all the necessary information to stream-line the production of custom sample(s).

* Our standard semi-open pore finish has a 35% sheen. Per the manufacturer’s recommendation, 35% sheen is more durable and shows less scratches than low (8%) or high (90%) sheens. Full-filled finishes will experience longer lead times due to the additional labor requirements of the finish.

The **Quote Request** is necessary for us to source the correct material. Once a project is quoted, we can see the scope of a project and any other requirements (veneer length). We are sourcing material on a per project basis regardless of veneer species or any other materials.
